

Replace 16+ Cybersecurity Subscriptions with One Offensive Security Intelligence Platform. One Vendor. One PANE OF GLASS!

CovertThreat is your first line of cyber intelligence — continuously identifying external exposures, validating exploitable attack paths, and prioritizing remediation before threats reach your internal defenses. **Your XDR and SOC protect what's inside; CovertThreat helps ensure attackers are LESS LIKELY to get there.**

ORGANIZATIONS COMMONLY PURCHASE

- 16+ security subscriptions
- 16 separate dashboards
- 16 logins
- 16 billing cycles

THE RESULT

- Alert fatigue
- Duplicate findings
- Manual compliance mapping
- Siloed data
- Higher operational cost

COVERT THREAT PROVIDES

- One platform
- One pane of glass
- One remediation workflow
- One executive dashboard

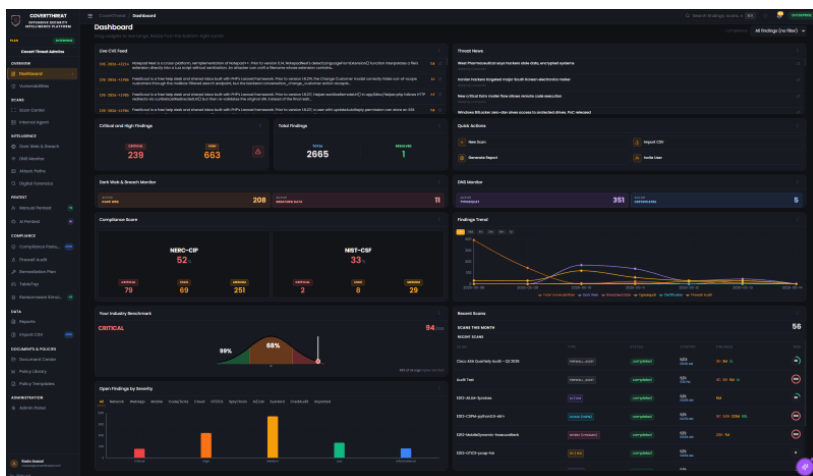

ENTERPRISE REPLACEMENT VALUE

- Replaces 16+ cybersecurity subscriptions
- Eliminates 16 dashboards
- Eliminates 16 billing cycles
- Consolidates 16 vendors into one platform
- Typical replacement value: **\$400,000-\$1.4M ANNUALLY**

QUOTES FROM CUSTOMERS

"We reduced seven security vendors into one operational platform." - Director of Cyber (Energy – Electric,Oil,Gas)

"Our security team finally had one dashboard." – VP of IT (Credit Union)
